Commodore's Report

We had a good meeting in February with the small group that was there. We discussed many things to make sure we are ready for our Ball. We also talked about cruises for this summer. After the meeting most went to Pier One for dinner. I headed home since I was tired after just arriving home that morning on the red eye flight from Vegas.

Wow, as I write this it's hard to believe it's March and our Ball is only a week away. I'm excited and nervous at the same time. I'm sure all will go well with the way our members are always there to lend a hand when needed. The scary part is that I have to give a speech. I don't think I'll ever be ready for that. I'm glad to see so many of our members are going to be attending the ball. It's always a fun time.

This evening Fred and I will be attending Marley Boat Clubs Ball and I want to thank Vera and Don for attending the Wellwood Yacht Club Ball. After our ball there are only two balls left and then right away the yacht club openings start. This is good because it means spring is here and it'll soon be warm and time to put our boats back in the water

I'll see many of you at the ball. Happy St. Patrick's Day to all.

Let us all support our Commodore and club by attending our Ball this is our biggest event of the Year

House Bill 140, “ Requiring an individual operating a vessel to wear a specified personal flotation device; prohibiting an individual operating or allowing the operation of a vessel while there is an individual present in the vessel not wearing a personal flotation device; providing for specified exceptions; etc.” Do you want to wear and have EVERYONE on your vessel wear a PFD full time? I certainly do not . The CBYCA is 100% against this bill. This bill will only be enforced on recreational boaters not waterman or water taxis. <http://mlis.state.md.us/2006rs/billfile/HBO140.htm> or call the sponsors in regards to this matter.
